Ariel Foundation invites applications for environmental or economic development programs

Deadline: September 6, 2024

The Ariel Foundation strategically partners with local groups to bring positive change within their communities. Our goal is to build relationships and work together to provide resources to those who are bringing opportunity and services and helping grow existing assets in the community.

To that end, Ariel Foundation invites applications for its grant program, which will award up to \$5,000 to support a project in the economic development or environmental sector.

Our focus and priority will include projects that work towards one or more of the following:

- empowering vulnerable people to provide for themselves, their families and communities, or
- protecting, renewing and restoring the Earth.

Eligibility Requirements and Guidelines:

The project must be in the economic development or environment sector.

The applicant must be in relationship with a member of the Ariel Council.

There are no geographic restrictions for this grant.

Grantees will be expected to put together an implementation plan and present it to Ariel Foundation before funding is sent.

Grantees are required to send reports to Ariel Foundation, including performance reports and pictures/videos (when appropriate).

Grant decisions will be made by September 23, 2024.
